# Internet Usage and Population Size by Country

Internet Usage = Number of Internet Users per 100 people

Map based on Longitude (generated) and Latitude (generated). Color shows details about Country (clusters). Size shows average of Population. Details are shown for Country. The data is filtered on Region, Year, Chart Type and Action (Country (clusters),Country). The Region filter keeps 6 of 6 members. The Year filter keeps 10 of 10 members. The Chart Type filter keeps Map. The Action (Country (clusters),Country) filter keeps 20 members. The view is filtered on Country, which keeps 20 of 20 members.

# Increase in Education Spending

% Increase in Education Spending based on % of GDP Budget for Education

% Spend Increase for each Country. Color shows details about Country (clusters). The marks are labeled by % Spend Increase. The data is filtered on Region, Year and Action (Country (clusters),Country). The Region filter keeps 6 of 6 members. The Year filter keeps 10 of 10 members. The Action (Country (clusters),Country) filter keeps 20 members. The view is filtered on Country, which keeps 20 of 20 members.

# Electrical Usage and Mobile Phones

Highly correlated to internet usage, which countries have the infrastructure to support increasing demand?

Average of Mobile Phone Subscriptions vs. average of Electrical Power Consumption. Color shows details about Country (clusters). The marks are labeled by Country. Details are shown for Country. The data is filtered on Region, Year and Action (Country (clusters),Country). The Region filter keeps 6 of 6 members. The Year filter keeps 10 of 10 members. The Action (Country (clusters),Country) filter keeps 20 members. The view is filtered on Country, which keeps 20 of 20 members.

# Top Picks based on Ratio

Strong relationship between mobile phone usage and internet usage growth, provides a leading indicator of up and coming countries

Ratio for each Country. Color shows details about Country (clusters). The marks are labeled by Ratio. The data is filtered on Set 3, Region, Year and Action (Country (clusters),Country). The Set 3 filter keeps 7 members. The Region filter keeps 6 of 6 members. The Year filter keeps 10 of 10 members. The Action (Country (clusters),Country) filter keeps 20 members. The view is filtered on Country, which keeps 20 of 20 members.
